Project Impact Information

17. What role will the incentive (or incentives) play in the decision of the applicant to locate or expand in this state? (If there are other states/communities competing for this project, please list which states/communities and what incentives are being offered by these states/communities.)

Florida - Incentives will play a major role because without the incentives, the other states would be more attractive.

Illinois is a competitive location because Succession Plan for the retirement of its current CEO involves a successor CEO who is a permanent resident of Oak Brook, Illinois.

Georgia is a competitive location because it would be a centralized compromise as between Florida and Illinois to serve four largest markets - Florida, Georgia, Illinois and Texas.

18. Provide a brief synopsis on the special impacts the project is expected to stimulate in the community, the state or regional economy, focusing on economic conditions in the area, including the unemployment rate in the community where the project will be located.

With a staff of 669 employees and a payroll of \$33,072,327.42, will have a significant economic impact on the county where it locates its headquarters. Furthermore, is projecting growth from its current 2006 volume, which is expected to be in excess of \$430 million, at a rate of 10 to 15 percent annually with a corresponding increase in its staffing needs and payroll.

19. a) A brief review of the applicant's past activities in Florida and in other states, particularly as they relate to environmental and growth management impacts and how these have been handled. (Basically, what kind of corporate citizen has the applicant been?)

As a corporate citizen, has focused on providing charitable contributions to a number of different organizations in the South Florida communities where the company is active. In 2005, contributed in excess of \$2.0 million.

- b) Any criminal or civil fines or penalties and any awards. (If yes, please explain)
- has never been subjected to any criminal fines, whereas Department of Insurance examinations have resulted in administrative penalties, but only in the normal course of business.

20. You may request that your project information (including the information contained in this application) be confidential per F.S. 288.075, Confidentiality of Records.
